

CALA 110

CALA 140

Mounting and cold laminator

New cost effective cold laminator for laminating, mounting, application tape and adhesive fixing. Low investment for a professional result on all kind of applications!

Additional lower shaft to be used as double-sided tape holder in order to laminate and apply adhesive tape at the same time.

The model comes also in different width (110cm and 140cm) and additional features like the heated upper roller in "H" models that ensure a perfect result on cold laminating material.
