- **Digital Control Panel with Bulb Life Monitoring System**
- **Variable Speed & UV Intensity - Precise Curing / Saves Energy**
- **"Patented" Kompac Coating Unit**
- **Optional: Hi-Pile Feeders and Stackers - Accept Pallets / Dollys, In-line Conveyor, Extended Feed / Delivery Tables, Sheet Detection System Provides Sheet Count and Instant Shut Down when a Jam is Detected - Helps Prevent Fires!**
- **One Stop Shopping for Coating & Supplies**
- **International Coating Support**
- **Enviromentally Friendly**

Made in USA

Built Kompac Tough **For a Long Life**

let Kompac put you in
the coating business

FEATURES

Digital UV - A more **environmentally friendly** technology! Solid State UV replaces outdated & potentially hazardous ballast/mercury relay systems used in curing UV reactive inks and coatings.

The infinitely variable bulb control allows the operator to make precise adjustments resulting in the perfect curing wattage every time, whether digital or offset output, producing dramatic cost savings on power and excellent ROI!

 Over curing can damage to digitally printed substrates causing the coating to "Scratch Off."

Digital UV
- Up to 380 watts / inch Curing Power
- Instant Start-up
- Runs Cooler
- Compact & Light Weight
- **Saves Energy (Guaranteed 25% Power Savings *)**
- **Eliminates Mercury** (except for a minute amount used in the bulb)
- **Kompac offers an "Ozone-Free Bulb" and a Recycling program for a greener operation**

"Patented" Kompac Coating System
- EZ On/Off Coating Controls (Reduces Coating Waste)
- Produces the highest gloss and a perfect finish every time
- EZ to clean and change coatings - With the patented **"Kompac Vac"** and our **environmentally friendly UV Klean**, coating change and clean up takes 2 minutes

SPECIFICATIONS

Sheet Size:	30.5", virtually any length	775mm, virtually any length
UV Lamp:	Solid State - variable UV	Solid State - variable UV
Speed:	up to 130 feet / minute	up to 40 meters / minute
Controls:	Variable speed & UV	Variable speed & UV
Stock Weight:	7pt. to 30pt.	150g/m² to 600g/m²
Dimensions:	115"L x 48"W x 51"H	2.9m x 1.2m x 1.3m
Weight:	1000lbs.	455kgs.
Electrical:	460-480v/3Φ/50-60Hz/30A	380-400v/3Φ/50-60Hz/30A

* Kompac EZ Koat will reduce your power consumption 25% compared to ballast type UV curing systems

SMALL FOOTPRINT

- **Perfect for Small Shops!**
- **EZ to move...It's on wheels.**
- **Switch from In-line to Offline in 5 minutes!**
- **Optimize / Prime your own substrates - Save $$**
